Great family home with pool

This private and lush home is the perfect family retreat.

Arriving at the front step of the property you will be met by the in-ground pool and surrounding tropical landscaping.

The front living area looks out to the pool, around to the side yard and terrace. Frangipani trees and palms catch your eye at every angle from the second living area and kitchen while adding privacy and a beautiful outlook. The open plan kitchen is full of bench space, cupboards and has a great breakfast bar for eating on the run.

The master bedroom features a walk in robe and en-suite, while there are two other bedrooms, both with built-in robes, set at the other end of the property.
